EDUCATION

St. Peter's School — **Bijnor, Uttar Pradesh, India**
Secondary School Certificate (Grade - 92.16) — *March 2006 - July 2020*

Narayana Olympiad School — **Bengaluru, Karnataka, India**
Senior Secondary Certificate (Grade - 81) — *August 2020 - July 2022*

Vellore Institute Of Technology — **Bhopal, Madhya Pradesh, India**
B.Tech - Artificial Intelligence and Machine Learning (CGPA - 7.51) — *October 2023 - May 2027*

TECHNICAL SKILLS

Languages: Java, Python, HTML, CSS, JavaScript
Frontend: React.js, Vite, Material UI, Recharts, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, EJS, Passport.js, REST APIs
Databases: MySQL, MongoDB, Mongoose, Mongosh
Tools/Platforms: Git, Github, VSCode, Vercel
Concepts: CRUD, MVC Architecture, Authentication, Authorization, Session Management, Responsive Design

WORK EXPERIENCE

Web Development Intern
Collab Solutions Pvt. Ltd., Pune, Maharashtra — *May 2026 - August 2026*

- Developed a responsive Construction Management Dashboard using React.js, Vite, Material UI, CSS Modules, and Recharts, providing a centralized platform across 20+ business screens.
- Implemented project management workflows with advanced search, multi-level filtering, sorting, expandable project details, budget tracking, manpower allocation, and machine assignment.
- Developed an end-to-end Finance Management module covering invoices, bills, receipts, completed payments, receivables, payables, and detailed transaction views.
- Created interactive business analytics and reporting dashboards using Recharts, visualizing revenue trends, expenses, project performance, machine utilisation, and receivables/payables.

PROJECTS

Homgobnb - Full Stack Property Listing Platform - Project Link

- Built a full-stack property listing platform with MongoDB, Express.js, React.js, Node.js, Mongoose and EJS, implementing complete CRUD workflows and MVC based application structure.
- Implemented Passport.js authentication, persistent sessions, protected routes, and ownership-based authorization, along with Joi validation, centralized error handling, and flash messaging.
- Integrated Cloudinary and Multer image uploads and MapTiler geocoding with Leaflet maps, while also developing a MongoDB backed review and rating system with user, listing, and review relationships.

QuickBite - Full Stack Food Delivery Platform - Project Link

- Developed a full-stack food ordering platform using React, Node.js, Express.js, and MongoDB, enabling users to browse food items, manage carts, place orders, and track order history through REST APIs.
- Implemented secure user authentication and online payments using JWT-based authentication and Stripe, integrating protected APIs and checkout workflows for order processing.
- Developed an admin management dashboard for product and order operations, enabling administrators to manage food items, monitor customer orders, and update order status through integrated frontend-backend APIs.

CERTIFICATIONS & EXTRACURRICULAR ACTIVITIES

CERTIFICATIONS

- Software Developer (HackerRank) – Sept 2026
- MERN Stack Certificates (HackerRank) – May 2026
- Agentic AI Foundations (Oracle) – August 2026

EXTRACURRICULAR ACTIVITIES

- **Semi Finalist** – Aarambh Football Tournament (2023)
- **Team Captain** – Aarambh Football Tournament (2024)
- **Team Captain** – Aarambh Cricket Tournament (2025)
